No. 15-63/09(CA)/PTA

February 12, 2009

Subject: PTCL's Collocation Charges

This is with reference to our letter of even number dated 1st January 2009 regarding revised PTCL's collocation charges.

2. On the request of few operators, PTCL has agreed to provide option to operators regarding the payment of power charges. In this regard, the operators can either pay the power charges in accordance with the formula approved by the Authority vide its letter dated 1st January 2009 or install their own sub-meters in PTCL's collocation sites and to pay PTCL on the basis of actual power consumption as per electricity tariff of Power Company in that respective city/region for the same category of customers. However, the operators will arrange the installation of sub-meters at their own cost at a place jointly agreed with PTCL.
